# RRZE Tango Icon Set

Special Icons for User Management and Web Applications in Tango Style

WHY?

Icons taken from standard software are often subject to license restrictions and very expensive if licensed for unlimited usage.

Standard software icons are not very flexible in use. In the majority of cases they are not available as vector graphics.

WHAT?

First we create our own icon set ➜ to complex

Then we came across Tango Icon Library ➜ useful for us

WHERE?

The icons could be found at
http://tango.freedesktop.org/RRZETangoSet

WHO?

Hedrik Eggers

Beate Kaspar

WHAT ELSE?

icons are licensed under CCbySA 3.0.

We don´t use the freedesktop colour-guidelines

➜ they don't match our corporate design

➜ there was some discussion on this list

Feel free to use!

Friedrich-Alexander-Universität
Erlangen-Nürnberg
