RRZE Icon Set in Tango Style Published for Free Use

The RRZE provides a special icon set for IT-topics in tango style available for use free of charge/ download and use it for free

Beate Kaspar created a new icon set based on the Freedesktop-Tango-icon-theme. Her icon set focuses on Identity Management Sytems however it also can be used for common IT Topics. The icon set includes different user types and several server icons. Additionally icons for status and classifications have been designed. The icons originate from the RRZE identity management project, where they are used in the user web front end. On behalf of the RRZE Beate Kaspar will continuously extend the icon set. All icons will be available for download in png and svg format from http://tango.freedesktop.org/RRZETangoSet. The icon set is licensed under the Creative Commons Attribution Share-Alike license 3.0. Details on the license can be found online at http://creativecommons.org/licenses/by-sa/3.0/. Therefore with this open source software, interested designers get the opportunity to use the icons for there own creations.

About the Regional Computing Center of Erlangen (RRZE)

The RRZE as a center of excellence for computer technology bridges the gap between research, science and technology within North Bavaria's academic. For several decades now, the RRZE has implemented and maintained the IT infrastructure as the only IT service provider of the FAU and has supported other universities in the region as well. Equally important tasks at the RRZE are the administration and coordination of campus-wide IT processes. Besides the use of commercial software, developing and deploying open source software becomes an increasing focus of RRZE attention.
